

# Golf portfolio 2024 Europe

 **BARENBRUG**

# Key golf products

---

## Technology involved:

- Resilient Blue Muda
- Resilient Blue Golf
- RPR Golf Extreme
- RPR Golf Dense
- RPR Golf Ultrafine

## Other:

- Bar Fescue
- Bar Fescue Plus
- Bar Superb
- Bar All Bent
- Bar Trio Bent
- Bar Rough
- Monaco

# Resilient Blue Muda

---

- Claim: Overseeding solution for permanently green bermudagrass
- Technology: Resilient Blue®
- Application: Foregreen, Green, Tee, Fairway, Semi rough

## USP's

- Permanently green bermudagrass all year round
- Automatic seasonal transition without downtime
- Excellent winter performance
- Minimal irrigation required

# Resilient Blue Golf

---

- Claim: Resilience in extreme situations
- Technology: Resilient Blue®
- Application: Tee, Fairway, Semi rough

## USP's

- Tolerance during stress periods
- Fastest recovery after stressful periods
- Extraordinary wear tolerance
- High disease tolerance

# RPR Golf update

---

- All technology products will be centrally named
  - Technology + Segment = Product name
- 
- | • <b>Current names (2023)</b> | <b>New names (2024)</b> |
|-------------------------------|-------------------------|
| • Bar Extreme RPR             | RPR Golf Extreme        |
| • Bar Intensive RPR           | RPR Golf Dense          |
| • SOS Golf Ultrafine          | RPR Golf Ultrafine      |

# RPR Golf Extreme

---

- Claim: Regenerating golf courses that are as strong as iron
- Technology: RPR®
- Application: Tee, Fairway, Semi rough

## USP's

- Highest wear tolerance
- Quickest establishment
- Less damage due to regenerating capacity
- Extremely strong

# RPR Golf Dense

---

- Claim: Golf courses with a very dense sward that are as strong as iron
- Technology: RPR®
- Application: Foregreen, Green, Tee, Fairway, Semi rough

## USP's

- High sward density
- Less damage due to regenerating capacity
- Less weed invasion
- Close mowing possible down to 5 mm

# RPR Golf Ultrafine

---

- Claim: Ultra-fine ryegrass solution for golf courses that are as strong as iron
- Technology: RPR®
- Application: Foregreen, Green, Tee, Fairway, Semi rough

## USP's

- Most fine leafed lolium solution
- Less damage due to regenerating capacity
- Very fast establishment
- Frequent close mowing possible down to 5 mm

# Bar Fescue

---

- Claim:           Finest fescues for excellent playing quality
- Application:    Foregreen, Green, Tee, Fairway, Semi rough

## USP's

- Finest sward
- High true- and smoothness
- Low fertiliser requirement
- Tolerates close mowing down to 4 mm

# Bar Fescue Plus

---

- Claim: Most sustainable turf for golf
- Application: Foregreen, Green, Tee, Fairway, Semi rough

## USP's

- Ultimate low input solution
- Whole year green
- Least mowing required
- Tolerates close mowing down to 5 mm

# Bar Superb

---

- Claim: The most dynamic green solution
- Application: Foregreen, Green

## USP's

- Versatile and dynamic green solution
- Stable summer & winter performance
- High turf density
- Tolerates close mowing up to 4 mm

# Bar All Bent

---

- Claim: Fast greens and perfect winter performance
- Application: Green

## USP's

- Highest playing intensity possible in winter
- Early spring growth
- Suitable for low pH
- Close mowing tolerance down to 3 mm
- Yellow Jacket Water Manager inside

# Bar Trio Bent

---

- Claim: Best creeping bent solution
- Application: Green

## USP's

- Highest disease tolerant creeping bentgrass solution
- Extremely fast greens
- Excellent heat tolerance
- For the closest mowing, down to 2.5 mm
- Yellow Jacket Water Manager inside

# Bar Rough

---

- Claim: Best appreciated rough mixture
- Application: Semi rough, rough

## USP's

- Fine and attractive flowering
- Fair and playable
- Suitable for all kind of soils
- Low maintenance required

# Monaco

---

- Claim: The next generation of Bermudagrass
- Application: Foregreen, Tee, Fairway, semi rough

## USP's

- Excellent density
- Exceptional wear tolerance
- Quick spring green up
- High fall color retention
- Yellow Jacket Water Manager inside
