

## GREENFORCE SI

### DESCRIPTION

Greenforce Si it is a product for foliar and root application, formulated with silicon and has very biostimulant, reinforcing and protective properties. important.

Greenforce si it has two clearly differentiated effects, regulation of nutrients and mechanical protection against external aggressions. This effect It results in a reduction in diseases and an improvement in general condition.

Greenforce si it enhances synergies, reduces antagonisms and blocks elements potentially toxic, achieving maximum nutritional effectiveness. Also It acts mechanically, reinforcing the cuticles. The epidermis gains thickness and hardness. This creates a natural protection against external weather attacks and against those produced: fungi and insects.

Facilitates the absorption of nutrients by the plant, improving root activity and strengthening the stem; In this way, growth is stimulated and plants more resistant to diseases. In addition, it improves the anti-stress capacity of plants and facilitates the dissolution of possible toxins from the soil.

### COMPOSITION

#### Guaranteed Composition

|           |          |
|-----------|----------|
| Silicon   | 23 % w/w |
| Potassium | 10 % w/w |

### DOSAGE AND METHOD OF USE

C3 species application: 2-4 l/ha

C4 species application: 2-4 l/ha

Maintenance dose: 2 l/ha.

In times of greater risk of pathogen attack and stress situations: 4 l/ha.

## PRECAUTIONS AND INCOMPATIBILITIES

Its use is recommended under qualified technical advice.

In mixtures with other formulations, compatibility tests are recommended. on small surfaces. The recommendations we provide are the result of extensive studies, but factors that are beyond our control may intervene in the use. our control.

The user will be responsible for the effects caused by total or total non-compliance. partial instructions.

Heavy metals: Total cadmium (Cd) <0.85 mg/kg; Total lead (Pb) <0.30 mg/kg;  
Total mercury (Hg) <0.050 mg/kg; Arsenic (As) <0.050 mg/kg

## WARRANTY

VELLSAM guarantees that the chemical composition of this product meets the characteristics described in this data sheet. Improper storage, times and methods of application, climates and crops, or mixtures with chemical products not specifically recommended in this sheet or through a written recommendation that accompanies it escape control and therefore responsibility of VELLSAM

No third party is authorized to give additional warranties or instructions regarding this product, and if they do, such warranties or instructions will not be valid or binding on VELLSAM
