

# AMINOGREEN FE FASTER

## DATA SHEET

### LIQUID IRON CORRECT

## DESCRIPTION

Aminogreen Fe, is a toning and preventive repair product for vitamin deficiencies. Iron based on amino acids and iron. It is indicated for periods of greater growth and development, being rapidly absorbed by the plant organs, with greater activity and demand for nutrients.

Easily and quickly assimilated bionutrient based on iron (Fe) and L-a-amino acids physiologically active and functional. Aminogreen Fe is especially indicated for the joint application of amino acids and iron in times of stress; and prevent deficiency states of this trace element as soon as possible.

Aminogreen Fe is an ecological product formulated with organic biomolecules of natural origin.

The amino acids in this formulation stand out for having the L configuration, which has greater physiological activity. Further away. The careful hydrolysis process followed in the obtaining amino acids provides a higher content of free amino acids, main quality criterion in this series of products.

Aminogreen Fe presents in its composition certain amino acids that play a role important from an agronomic point of view, such as: proline, glutamic acid, glycine, alanine and arginine.

## COMPOSITION

### Guaranteed Composition

Free Amino acids Total	13,00 % w/w
Total Nitrogen (N)	2,6 % w/w
Iron (Fe)	6,0 % w/w

## DOSAGE AND METHOD OF USE

Aminogreen Fe Faster can be applied throughout the crop cycle by spraying. It is especially indicated for pre-match and getting a quick green.

Dosage: 2-4 l/ha

## PRECAUTIONS AND INCOMPATIBILITIES

AMINOGREEN FE FASTER is compatible with most fertilizers and phytosanitary products, however, prior mixing is recommended and avoid mixing with oils and acid reaction products.

AMINOGREEN FE FASTER does not require special handling conditions. The product is not flammable or corrosive. However, it is recommended:

- Do not store in a container other than the original one.
- S2: keep out of reach of children.
- S3 / 7/8: keep the container in a cool, dry and tightly closed place.
- S13: keep away from food, drinks and feed.

Do not apply during hours of maximum sunlight.

## WARRANTY

VELLSAM guarantees that the chemical composition of this product meets the characteristics described in this data sheet. Improper storage, times and methods of application, climates and crops, or mixtures with chemical products not specifically recommended in this sheet or through a written recommendation that accompanies it escape control and therefore responsibility of VELLSAM

No third party is authorized to give additional warranties or instructions regarding this product, and if they do, such warranties or instructions will not be valid or binding on VELLSAM
