

HUMIGREEN 26

TECHNICAL DATA SHEET

ORGANIC AMENDMENTS

DESCRIPTION

HUMIGREEN 26 is an organic product based on a formulation of liquid humic and fulvic acids extracted from carefully selected natural leonardite.

HUMIGREEN 26 improves the soil features favoring the cation exchange capacity and the absorption of nutrients. HUMIGREEN 26 increases the solubility of metallic elements by means of the carboxylic groups.

This effect allows a better absorption of micro-nutrients in alkaline soils with high pH. It also improves the retention of ground water and allows an easy drainage in case of excessive intake of water through the pores present in the soil.

The use of HUMIGREEN 26 is recommended to:

- Provide organic matter to every kind of soil.
- Stimulate root development and increase plant nutrients intake.
- Improve soil structure by enriching the clay-humic complex to increase soil infiltration as well as its water holding capacity.

COMPOSITION

Guaranteed Composition

Total Humic Extract	26 % w/w
Humic Acids	10 % w/w
Fulvic Acids	16 % w/w

DOSAGE AND METHOD OF USE

Apply with irrigation water, splitting on 3 applications spaced by a month at 15-20 L/ha

- Fruit trees: 25-60 L/ha
- Citrus (for the late varieties, make an application in October-November): 25-60 L/ha
- Olive trees (2 applications made the first in spring and the second in summer): 20 L/ha
- Ornamentals: 35-60 L/ha
- Strawberries: 35-60 L/ha

PRECAUTIONS AND INCOMPATIBILITIES

HUMIGREEN 26 is compatible with most fertilizers and phytosanitary products, however a previous mixture is recommended and avoid being mixed with oils and acid reaction products.

HUMIGREEN 26 does not require special handling conditions. The product is not flammable or corrosive, however it is recommended:

- Do not store in a container other than the original one.
- S2: keep out of the reach of children.
- S3 / 7/8: keep container in a cool, dry, and well closed.
- S13: keep away from food, drink, and animal feed.
- Do not apply in hours of maximum sunlight.

WARRANTY

VELLSAM guarantees that the chemical composition of this product meets the characteristics described in this data sheet. Improper storage, times and methods of application, climates and crops, or mixtures with chemical products not specifically recommended in this sheet or through a written recommendation that accompanies it escape control and therefore responsibility of VELLSAM

No third party is authorized to give additional warranties or instructions regarding this product, and if they do, such warranties or instructions will not be valid or binding on VELLSAM
